Institution has created an ecosystem for innovations and has initiatives for creation and transfer of knowledge

We constantly strive to inculcate innovative thinking in students and staff to meet current global demands and expectations. Several methods are adopted to achieve this which includes Industry Institute Interactions through industry experts being invited to interact and address staff and students, focused Research and Development activities, Entrepreneurship Development activities, and encouraging Intellectual capacity building. The Research Advisory Committee of the college has been at the forefront to promote research culture among students and staff. The Committee has charted a well-defined research policy and has carried out several research projects, dissertations, scientific paper publications, training in research methodology and mentorship to staff on supervising research work etc., to date. Faculty are given opportunities and encouraged to enhance their knowledge through Training Programs. To bridge the gap between Academia, Research Industry.Institute Interactions. Experts from various sectors were invited to the college to deliver lectures.
